Guide of Sanity & Survival for Young Parents

A book of stories and information about pregnancy, birth and parenting written by, for and about young parents.

This book is for anyone interested in the lives of young parents and the resources and information available in South Australia to support them.

A valuable resource for parents, health workers, teachers, counsellors and grandparents.

"Not knowing other people in you own age group when you're pregnant is hard. You can feel like you are the only one. We hope this book helps you to realise that there are people like you and you're not the only one."

A project supported jointly by Enfield Community Health and The Second Story - Children, Youth and Women's Health Service.
